

PROFILE OF IDEALRATINGS

IdealRatings is one of the trusted providers of accurate, and timely, Islamic Finance information. Its Shariah screening, purification, fund and index management services identify and manage Shariah compliant equities, funds and Sukuk globally. Most Islamic index providers, and financial institutions in 12 countries rely on IdealRatings to create and manage their Islamic products. Its service is currently used by some of the leading financial institutions worldwide.

IdealRatings was formed in 2006 by a team of financial service and technology experts dedicated to delivering superior solutions to the marketplace. Starting from over 42,000 securities from more than 100 countries, IdealRatings offers the largest, most accurate Shariah compliant universe covering more than 95% of the global market capital.

IdealRatings' service delivers the only end to end solution to the Islamic finance market participants. Its customers are world leading financial institutions, asset managers, index providers, dealers brokers, such as:
